# Tropical Products: World Markets and Trade

## U.S. Coffee Stocks by Port

As of July 31

(In Million Bags)

U.S. coffee stocks at the end of July 2005 totaled 6.1 million bags. The Port of New Orleans accounted for 27 percent of the total. It is unclear at this time the extent of the damage from Hurricane Katrina. The assessment of the damage to coffee stocks, warehouses, and roasting facilities will take time. The New York Board of Trade declared that a force majeure situation existed on New Orleans coffee for delivery against the September contract.

### NOTICE

***Tropical Products: World Markets and Trade*** (This circular is available on our Web site in March, June, September, and December.) Circulars will be released at 3:00 p.m. on the scheduled release date.
